The Rating DynamIIC is based on the analysis of a set of information available in the database of the INFOTRUST and the relationship of a set of factors that are determinant in the performance evaluation in terms of credit risk and the probability of default of a business entity in the short term. INFOTRUST risk assessment system does not represent in any way the views of INFOTRUST, expressing solely an indication of the possibility of a business entity to default.

The Rating DynamIIC analyzes the following criteria: seniority, commercial incidents (lawsuits, bankruptcies, special processes of revitalization, protest of letters), payments experiences, current situation, financial information, size and sector of activity.

Because it is an indicator that is based on a statistical analysis and prevision, does not necessarily reflect the real situation of a company and does not dispense the client of consulting other sources.
